

IDENTIFICATION & REPORTING ON

Crystal Meth Labs IN YOUR Community

AWARENESS IS KEY!

- Be aware of how the labs operate, the materials they use, and the potential dumpsites along roadsides, abandoned yards and buildings.
- Be aware of strange or suspicious activity and behaviours, and attempted or actual thefts of manufacturing materials.
- Do not approach individuals – they may be violent!
- Do not enter sites or dumps – they are toxic!

REPORTING PROCEDURE:

- Call 911 to report sites, behaviours, and incidents.
- Call 310-0000 for Alberta Environment Hotline for cleanup requests.

TYPICAL DUMP SITES:
